SECTION I

OVERVIEW

Introduction

This gazetteer of lakes in Florida is an updated version of the 1982 Gazetteer (Dickinson, et al., 1982) which was an updated version of the 1969 Gazetteer (Florida Board of Conservation, 1969). The 1969 gazetteer listed lakes in alphabetical order and by hydrologic basins. This updated gazetteer retains the earlier alphabetical listing. The basin listing was deleted since these boundaries are not contiguous with the boundaries of the five water management districts created in 1972.

This edition of the Florida Gazetteer and the 1982 version are based on computer punch cards stored in the office of Mr. Joe Hand of the Florida Department of Environmental Regulation. The information on the computer punch cards did not correspond to the information printed in the 1969 report - Florida Lakes - Part III Gazetteer. The following differences have been noted:

1. All lakes smaller than 10 acres were deleted;
2. The lakes of Highlands County were missing on the computer cards;
3. There are no remarks on the computer punch cards;
4. Latitude and longitude of the lakes were available from computer cards but were not printed in the Florida Gazetteer; and
5. 429 named lakes were missing from various counties.

This edition and the 1982 edition of the gazetteer rectify some of these differences. The following groups of lakes have been added to the Gazetteer: (1) the missing lakes from Highlands County; (2) the 823 named lakes smaller than 10 acres in size; and (3) the 429 named lakes missing from the 1982 gazetteer.

This edition of the gazetteer is organized in the following sequence: (1) Named lakes in alphabetical order (Section II); (2) Named lakes by size (Section III); (3) Named lakes by county (Section IV); (4) Unnamed Florida lakes by county and surface area (Section V); (5) An index to the topographic maps of Florida (Section VI); and (6) A list of duplicate lakes in the gazetteer (Section VIII).

This edition of the gazetteer is available as Lotus 123 version 2.0 data files. The diskettes containing the lake data are available from the Florida Water Resources Research Center.

Summary

A total of 7748 lakes are on the current list, which includes 3621 named lakes. Generally the unnamed lakes are less than 100 acres in size. Table 1-1 shows the 100 largest lakes in the State of Florida. Heading the list is Lake Okeechobee, the largest natural freshwater lake in the United States that is entirely within one state. The size distribution of Florida lakes is presented in Table 1-2. The total number of lakes in Tables 1-2 and 1-3 do not add up to 7748 due to a limited number of missing surface areas and lake types.

Table 1-1. The 100 Largest Named Lakes in Florida.

76-100	270	1151	3.6%	15.5%
51-75	511	1662	6.9%	22.3%
26-50	1273	2935	17.1%	39.4%
11-25	3139	6074	42.2%	81.6%
2-10	1219	7293	16.4%	98.0%
1	149	7442	2.0%	100.0%

Table 1-3. Distribution of Florida Lakes by Lake Type.

Type of Lake	Number of Lakes	Percent of Total
1. Lakes with streams flowing into them	310	4.3%
2. Lakes with streams flowing out of them	702	9.6%
3. Lakes with streams flowing in and out of them	1090	15.0%
4. Lakes that are landlocked	5187	71.2%
TOTAL	7289	100

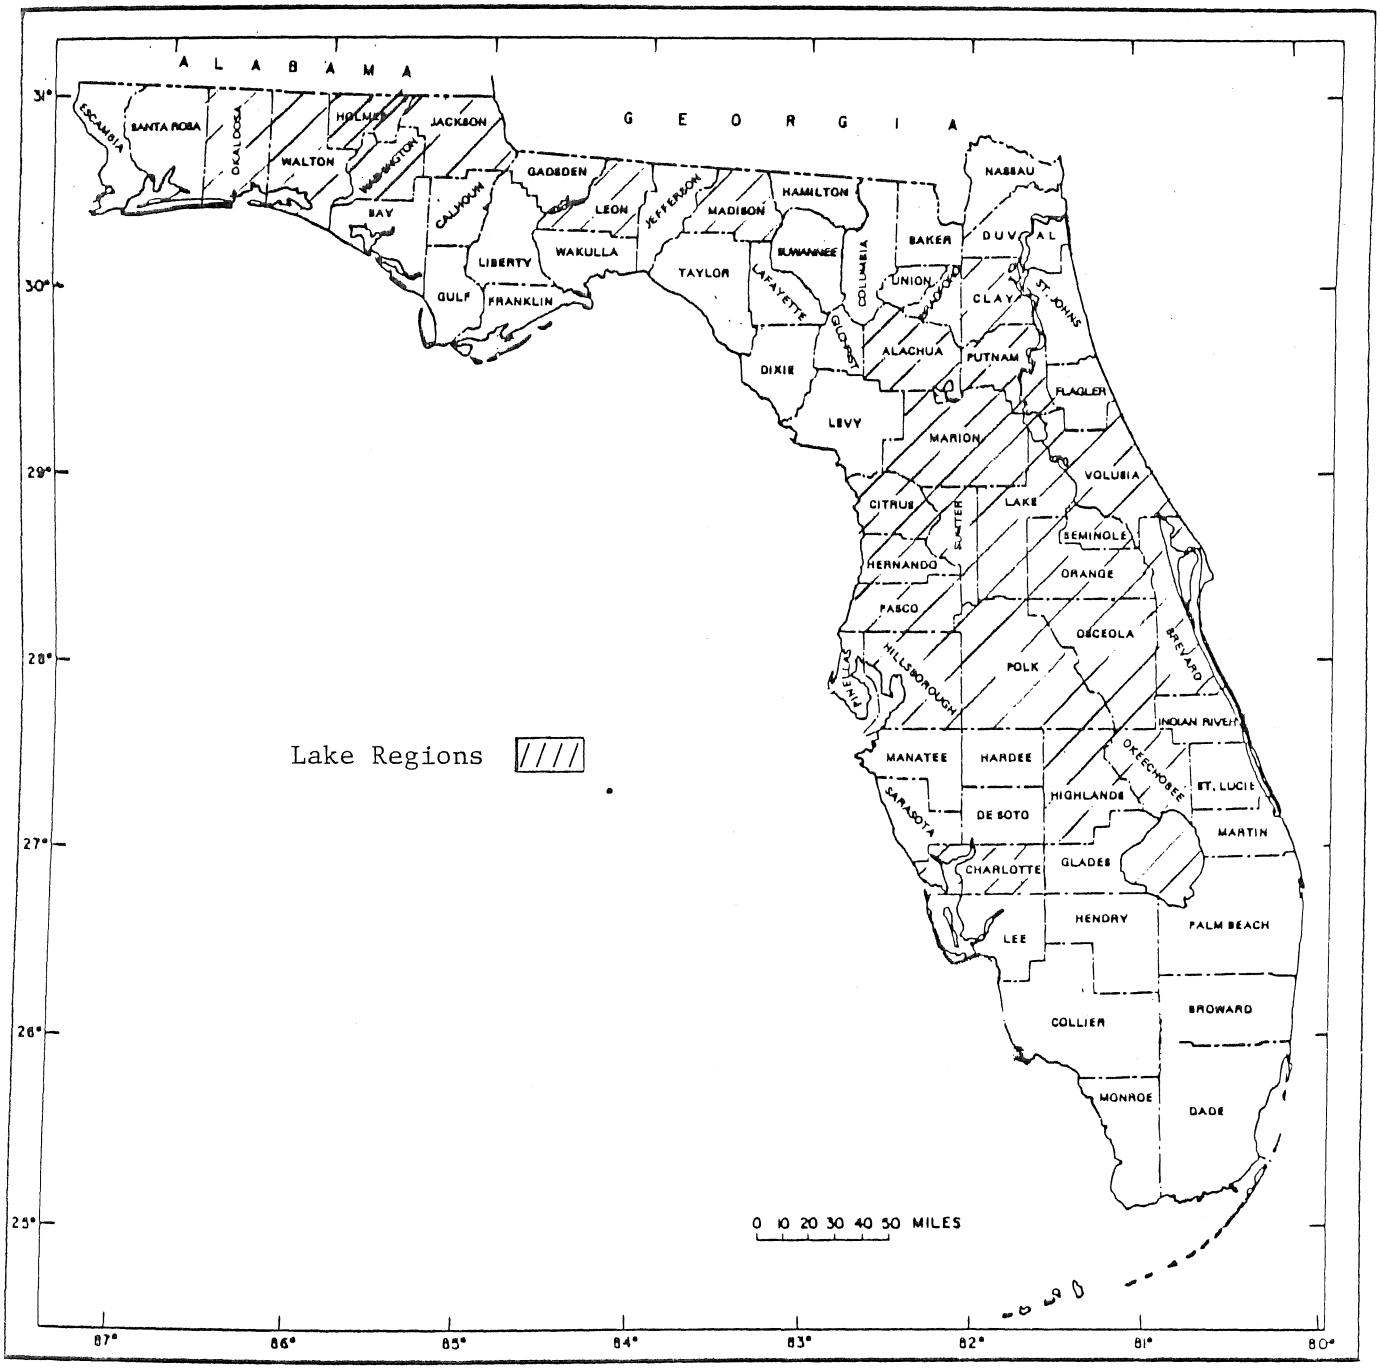

Florida lakes have been classified into the four types shown in Table 1-3. Errors in the computer punch cards on which the lake data is stored account for the discrepancy between the total number of lakes in Table 1-3 and the total number of lakes in this gazetteer.

The surface area and the total number of named lakes is shown for each county in Table 1-4. A map showing the twenty counties with the largest number of named lakes is presented as Figure 1-1.

Figure 1-1. Florida Counties and Lake Regions.

SECTION II

ALPHABETICAL LISTING OF NAMED FLORIDA LAKES*

HEADER CODE:

Name of Lake: Name of Lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used , e.g., A.J. Spencer Pond is listed under A not S. Also lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little. Unnamed Florida Lakes are not listed here but they can be found in Section V.

County: County in Florida that the listed lake is found.

Surface Area: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps**. The areas were rounded to the nearest integer. Named lakes less than one acre in size were reported as one acre in size. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

NAMED FLORIDA LAKES LISTED BY SURFACE AREA*

HEADER CODE:

Name of Lake: Name of Lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used , e.g., A.J. Spencer Pond is listed under A not S. Also lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little. Unnamed Florida Lakes are not listed here but they can be found in Section V.

County: County in Florida that the listed lake is found

Surface Area: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps. The areas were rounded to the nearest integer. Named lakes less than one acre in size were reported as one acre in size. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

* The areas of most of the lakes are from U.S. Geological Survey, Surface and Drainage Areas of Selected Lakes in Florida, Florida District, Tallahassee, Florida, 1968.

SECTION IV

NAMED FLORIDA LAKES LISTED BY COUNTY*

HEADER CODE:

Name of Lake: Name of Lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used , e.g., A.J. Spencer Pond is listed under A not S. Also lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little. Unnamed Florida Lakes are not listed here but they can be found in Section V.

County: County in Florida that the listed lake is found

Topographic Map Number: Number of the topographic map that the lake can be found.

Location: The location of the approximate center of the lake is identified by section number, township and range. Where more than one lake lies within a given section, the lakes are further identified by numbering counterclockwise around the quarter section beginning in the upper left hand corner.

Surface Area: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps. The areas were rounded to the nearest integer. Named lakes less than one acre in size were reported as one acre in size. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

Elevation: Elevation in feet above mean sea level

Lake Type: Type of lake:
1) Streams flowing into them
2) Streams flowing out of them
3) Streams flowing into and out of them
4) Landlocked

Latitude: Latitude of lake

Longitude: Longitude of lake

SECTION V

UNNAMED FLORIDA LAKES LISTED BY COUNTY*

HEADER CODE:

Name of Lake: This section lists only unnamed lakes sorted by county.

County: County in Florida that the listed lake is found

Topographic Map Number: Number of the topographic map that the lake can be found.

Location: The location of the approximate center of the lake is identified by section number, township and range. Where more than one lake lies within a given section, the lakes are further identified by numbering counterclockwise around the quarter section beginning in the upper left hand corner.

Surface Area: Surface area in acres. Lake areas determined by the USGS for their 1968 report referred to below were obtained by planimetering from their maps. The areas were rounded to the nearest integer. Named lakes less than one acre in size were reported as one acre in size. Marshes adjacent to lakes were included in the area measurement. Connected lakes are listed as one lake.

Elevation: Elevation in feet above mean sea level

Lake Type: Type of lake:
1) Streams flowing into them
2) Streams flowing out of them
3) Streams flowing into and out of them
4) Landlocked

Latitude: Latitude of lake

Longitude: Longitude of lake

SECTION VI

LIST OF NAMED LAKES ADDED TO CURRENT GAZETTEER

HEADER CODE:

Name of Lake: Name of Lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used , e.g., A.J. Spencer Pond is listed under A not S. Also lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little. Unnamed Florida Lakes are not listed here but they can be found in Section V.

County: County in Florida that the listed lake is found

Surface Area: Surface area is measured in acres.

****

SECTION VIII

DUPLICATE LAKES IN THE FLORIDA LAKE GAZETTEER

HEADER CODE:

Name of Lake: Name of Lake. The lakes are listed by proper name, e.g., Jackson, Lake rather than Lake Jackson. The alphabetical listing is by first initial if initials are used , e.g., A.J. Spencer Pond is listed under A not S. Also lakes with names beginning with "big" or "little" are listed under these titles, e.g. Little Bass Lake, not Bass Lake, Little. Unnamed Florida Lakes are not listed here but they can be found in Section V.

County: County in Florida that the listed lake is found

Lakes: Actual number of lakes under the listed lake name. The code 999 indicates numerous small lakes listed under one umbrella lake name.

Note: The total number of duplicate lakes are 207 plus 4 lakes listed as numerous small lakes.
